

# Oracle Reports Lead

## Les Draper

1014 North 4<sup>th</sup> Street  
Jeannette PA, 15644  
407-924-8817

[LesDraper@aol.com](mailto:LesDraper@aol.com)

## Desired Work: Oracle Reporting, ETL, Data Warehousing, Application Software Integration

- **11 Years in Oracle Reporting**
- **28 Years in IT**
- 17 years Senior Data Architect and Author of integrated vertical database applications and value added reseller of Unix based products.
- 17 years Business Analyst and Applications Developer
- Wrote specs and designed the database structures
- Screen Forms and Reports Developer for vertical applications.
- **Expert in Complex Oracle SQL Queries.**
- Query Tuning
- **Wrote Oracle Functions, Procedures, Variable Granularity Multi-Dimensional Warehousing Views.**
- Oracle 6i, 8i, 9i, and 10G OC4J environment,
- Released report versions with 10G data base conversion
- Maintained, and altered data dictionaries, data models, design and integration to the General Ledger
- Created tables, indexes, foreign keys, constraints
- Wrote application documentation.
- Windows, SQL Server, Unix and Real Time OS Experience
- Toad - 11 years experience
- Ported data and applications across three operating systems
- Wrote Unix Shell and CRON Scripts

## OS Platforms:

RSDOS, MSDOS, Microware OS9, Interactive Unix and VPIX, SCO Unix, Windows, and to a very limited extent the Linux platform.

## Languages and Tools:

Oracle 6i, 8i, 9i, 10G,11G, Sculptor 4GL, Basic09, Oracle Reports, Oracle SQL, PL/SQL, Oracle Enterprise Database, Toad, Portal, OC4J Environment, MKS (source control), and Oracle Forms (limited exposure). Have also written Unix shell and cron scripts, Oracle stored database views, functions, procedures. Also, VI Editor, Word Perfect, Microsoft Office Front Page, Microsoft Word, Visio, Projects, Excel, Access Database, SQL Server, Lotus Notes, Epicor, Adobe Lightroom and Photoshop.

# Employee History

**November 2009 – Feb 2011** (15 months)

Employer: **Elliott Group - Ebara Corporation**  
901 North 4<sup>th</sup> Street  
Jeannette, PA 15644

Manager: Richard Bollinger  
rbollinger@elliott-turbo.com

Software tools used here: **Oracle Report Builder 9i, Toad, MS Access, SQL Server, Excel, MS Word, MS Projects, MS Access Database.**

Job Title: Application Integration Specialist

Duties in **MS Access** included:

- Managing 8-10 Access databases
- Merging data
- Created tools to clean the data,
- Performed database design
- Created table relationships and constraints
- Created screen forms
- Reports
- Integrated with Lotus Notes e-mail services
- Interconnected shared databases resources
- Defined security groups
- Integrated MS Access to SQL Server for a back end.

Duties in **Oracle** included:

- Using Toad and Oracle Report Builder to create new reports for the Oracle Enterprise Edition software application
- Integrated the reports by defining executable and program objects, request sets and parameters forms within that application.
- Used (and tuned) Noetix views where need

Duties in **Epicor** included:

- Writing Business Activity Queries (BAQs)
- Writing Dashboards and reports in the Epicor 9.5 databases in support of our Global Services department.

## March 1999-2009 (10 years)

Employer: **Tempus Resorts International**  
7380 Sand Lake Road  
Orlando FL 32819

Managers: Joel Heckman 352-348-9240 (same manager at two different companies)  
Bruce Colello 321-388-2146  
John Johnston 407-226-9589

Software tools used here: **Oracle Report Builder** 6i, 8i, 9i 10G on Windows platform. Toad, Excel, MS Word, MKS (source control software)

### Duties and Skills in Oracle 6i-10G:

- Created complex custom reports requiring as many as 54 queries in a single data model
- Created and used views, functions, and stored procedures for reports.
- Worked around Oracle's undocumented features in report builder to create reports containing a dozen
- matrix layouts in a single report that was not allowed by the report wizard
- Created reports that spanned multiple linked databases schemas
- Performed database tuning
- Tuned queries in Toad
- Created database indexes as needed to optimize queries
- Created multi-dimensional OLAP views
- Can create packages, database triggers, sequences, constraints, perform DML and DDL
- Created legal documents and all standard Oracle reports layouts
- Created reports with complex repeating frames and embedded layouts
- Used 8i analytical functions in reports and views
- Designed importation routines for SDN from the US Treasury and wrote a complex soundex comparison query to names in our database
- Created flat files and exports to Excel
- Populated tables from a spreadsheet
- Created PDF report in 10G that allowed drill down link reporting to replace 6i buttons
- Reported departmental performance, sales, marketing, and payroll, and corporate financial reports
- Created reports that used security to automatically filter and restrict data returned by the report based upon the user department, property, market area, market department, market type, market source, employee role, and employee responsibilities as predefined by data in the database instead of using report parameters as filters but allowed bypasses for executives.
- Ad-hoc queries and flat file creation
- Production data and warehouse integrity exception reporting
- 6i Drill down summary/detail buttons graphics, charts and bar codes
- Reports using BLOBS in repeating frames
- Trained new employees
- Maintained reports through all database conversions by numbered release

## April 1997- Oct 1998 (18 months)

Employer: **Central Florida Investments**  
5601 Windhover Dr.  
Orlando FL 32819-7914  
407-351-3354

Manager: Joel Heckman 352-348-9240 (same manager at two different companies)

Software tools used: Sculptor 4GL, Unix, VI editor

### Duties and Skills in Sculptor 4GL:

- Business Analyst and Sculptor Applications Developer
- I wrote Unix terminal character based applications
- Created tables, Menus, Forms and Reports in Sculptor 4GL
- Maintenance and new development of industry applications similar to those at Tempus Resorts except for character based terminals on Unix
- Wrote shell scripts

## March-Nov 1992

### Civic Volunteer

I worked as a US Presidential Campaign Chairman for two counties in Washington State. **I created a small volunteer database** to fill campaign volunteer needs, made assignments and managed the coordination of activities of over 250 volunteers.

## Oct – Dec 1990

Employer **Siemens Nuclear Power Corp.**  
2101 Horn Rapids Road  
Richland, WA 99352

Manager: Denny Hayden

Duties: I took a temp job to install an Interactive Unix box for their NASTRAN system as well as some tech support I did for them.

## Self Employment Activities 1978 – 1997

### Self Employment Highlights

1978 - 1990 I owned a photographic portrait studio for 12 years, wrote all the software for it. I then marketed it nationally to other studios. I completely integrated all the applications directly to my general ledger including payroll, integrated time clock, point of sale, billing, statements, letters, bar coded order and lab tracking of negative sacks, expediting reporting, commissions, tax reporting, check writer and accounting, automated tape backup. This product was placed on SCO Unix boxes I made and was the system administrator for the following businesses. I was a **Value Added Reseller** for Unix machines I built and installed my software applications 1986 **Database Architect - Sculptor 4GL** I nationally marketed the first multi-user multi-tasking product in the United States for my vertical industry in trade magazines.

### My Vertical Market Application and Value Added Reseller Activities in Sculptor 4GL

Client Reference 1) Don Sr. and Janet Rubenack (Son Don Jr is new owner)

**Donette Studio Inc**  
4165 Hannegan Rd,  
Bellingham, WA  
360-733-0540

Client Reference 2) Randy and Melinda Dellinger

**Vakker Portraits**  
1940 124th Ave Ste A108  
Bellevue, WA 98005  
425-455-2827

My application and system was **in use or over 20 years** at this business  
1992-1997

Client Reference 3) Fred Durfee

**Durfees Machine**  
315 East Columbia Drive  
Kennewick WA 99336  
Phone 509-582-5060

**Also a former full-time employer 1992 – 1997**

### Duties for Clients References 1 to 3 Above using SCO Unix and Sculptor 4GL:

- Business Analyst
- Database Administrator
- Database Architect
- System Engineer
- Unix System Administrator
- Form Developer
- Report Developer
- Hardware Tech Support
- Software Tech Support
- Computer Manufacturer
- Technical Writer, Graphic Artist and Photographer
- Software Marketing Manager
- I developed and supported 1000 menus, forms and reports for a complete Unix based business management and integrated accounting system
- Unix Cron and Shell scripts

**April 1997 End of Self Employment**

## Education

Oracle University Report Builder / PLSQL.  
Crystal Reports Certification  
Microsoft Access Certification  
High School  
DeVry Institute Of Technology, Phoenix, AZ (Electronics Engineering)

## Public Service

Volunteer missionary - full time for two years  
Rotary International  
US presidential campaign chairman for two counties in Washington state  
Texas Equusearch search and recovery volunteer  
United Way  
Boy Scouts of America  
The Bread of Life Foundation Orlando FL

## Career Synopsis:

My most recent employer was a 100 year old global Fortune 500 company with over 30 locations world wide. My job was that of an application integration specialist. I continued to create Oracle Reports for the Enterprise database. I integrated Access databases and worked on their Epicor databases as well. At Tempus Resorts I was considered to be the Oracle Reports master having 10 years experience with them. I was the one they gave the most challenging and complex reporting assignments and I was a mentor for new employees. While I had no managerial duties with my last employer, at the age of 23 I had my own commercial business and even purchased the building I worked in. My initial career began in professional photography. I managed several employees over the 12 year length of my career as a small business owner and managed a US Presidential campaign in 1992 for two counties. I developed and advertised the very first multi-user multitasking applications in my industry in the national trade magazines at a time when others were discovering MSDOS. I am self taught and I wrote a fully integrated double entry general ledger software accounting package integrated with all the process oriented applications for my entire business. That is all anyone could do in those days as there were no fully integrated software applications yet for the industry.

The software development took on a life of its own and exceeded the life of my original portrait business for which the applications were originally written. I set the studio business aside and concentrated fully on programming. My applications were then ported across other operating systems and adapted to the manufacturing industry. Then (14 years ago) I moved to Orlando to take a job in the timeshare industry. My first job lasted two years and my 2nd job lasted 10 years. I am an expert in writing complex SQL queries and complex report styles using various Oracle Reports versions through 10G over the years. I was a Unix System Administrator and value added reseller for a vertical market application that I wrote. I built the Unix boxes from component parts and supported my remote machines in distance cities before the days of the world wide web. I installed the operating systems, networked them, wrote the integrated software applications, designed the database structures, modified the code to customer specs, automated the remote machines to draw newest revisions from the development machines and completely automated the reformatting of data structures on the remote boxes and of all upgrades from a single update instruction. I wrote the Unix scripts to automate security on the Unix boxes and perform data backup to tape and created user friendly products and support to clients that knew nothing about computers except data entry.

# Oracle Reporting Personal References

## Team workers and application clients:

**Mike Cristina**

407-370-0560

Fellow Oracle Reports Specialist known about 7 years from Tempus Resorts International.

**Richard L. Sandifer**

407-294-3513

Oracle Forms Specialist and Sculptor Programmer known 14 years from Tempus Resorts International and Central Florida Investments.

**Larry Mannerberg**

407-973-7696

Oracle and Sculptor programmer known 14 years from Tempus Resorts International and Central Florida Investments.

**Louis Berry**

407-226-1000 ext 60493

Marketing Accountant known about 10 years from Tempus Resorts International – Relating to on the fly data analysis and my always being helpful to completing his work requests efficiently with haste :) He will like that one.

**Nichole Branch Cunningham**

407-226-1000 ext 69526

Accounting manager known 12 years from Tempus Resorts International – Related to complex reporting requests

## Upper Management Reference

**Joel Heckman**

352-259-2901 Home

352-348-9240 Moblie

**Joel Heckman was the CIO at Central Florida Investment and started the IT department at Tempus Resorts International.** He hired me for **both** jobs.

## Interests and Activities Exhibiting Personal Excellence:

Digital electronic design hobbyist, photography, ballroom dance, instrumental music, missionary work, charity and service work and community building activities, won the top award in an international photography competition from over 3000 entries.
